PROFILE

Motivated and detail-oriented Python Full-Stack Developer with a strong foundation in building scalable web applications using Django and React.js. Beyond software development, I have a deep-rooted passion for computer technology, including hands-on experience in PC assembling, hardware troubleshooting, and system optimization. This unique blend of software expertise and hardware enthusiasm fuels my analytical problem-solving abilities and meticulous attention to detail. Adept at collaborating with cross-functional teams to analyze requirements and deliver robust technical solutions, I thrive in dynamic environments that demand continuous learning and innovation.

TECHNICAL SKILLS

Languages: Python, JavaScript

Frameworks & Libraries: Django, Django REST Framework, React.js, Node.js, Bootstrap, Redux

Databases: MySQL

Concepts & Other: RESTful APIs, Web Development, AI Data Training, PC Assembling & Hardware Troubleshooting

WORK EXPERIENCE

Back Office Executive

Sarathy Motors, Thiruvananthapuram | February 2026 – Present

- Manage daily back-office operations and maintain accurate digital records using computer-based management systems.
- Ensure data integrity and streamline administrative workflows, demonstrating strong attention to detail and organizational skills.

Data Analyst

Cogniphi | December 2024 – August 2025

- Executed AI model training processes, evaluating and annotating complex datasets to improve machine learning algorithm accuracy and performance.
- Utilized programming skills to write and optimize scripts for data manipulation, process automation, and analytical reporting.
- Collaborated with technical teams to analyze data outputs, identify trends, and ensure high-quality data pipelines for AI-driven projects.

INTERNSHIPS

Python Full-Stack Intern

Mashup Stack, Thiruvananthapuram | June 2024 – July 2025

- Gained extensive hands-on experience in full-stack development over a 13-month period, working with Python, Django, and React to build functional, scalable web applications.
- Collaborated with mentors and cross-functional teams to understand software development lifecycles, debug complex issues, and implement best coding practices.

PROJECTS

Daily Water Intake Tracker | Django, MySQL, AJAX

- Developed a web application allowing users to sign up, log in, and track daily water intake with timestamped entries.
- Implemented features for viewing intake history with pagination, comparing intake between dates using AJAX, and managing (editing/deleting) entries securely.

URL Shortener | React, Redux

- Built a responsive frontend application where users can sign up to add, manage, and shorten URLs with custom titles.
- Implemented features for viewing, searching, editing, and deleting entries (limited to 5 URLs per user), along with pagination and secure logout functionality.

EDUCATION

B.Sc. Computer Science

University of Kerala / Co-operative College | 2020 – 2023

Higher Secondary Education (Computer Science)

Kerala State Board of Higher Secondary Education, GVHSS Vattiyoorkavu | 2016 – 2018

INTERESTS

Technology, Coding, PC Gaming, Music, Motorcycles
